WLAN /LAN-Stick User Manual	 Product Overview WLAN/LAN-Stick is a smart data collection device developed by AiSWEI. It is used to collect the operating data of inverters and upload the data to the cloud. WLAN/LAN-Stick has two types depending on how it connects to the inverter: USB connector USB connector Aviation connector OUSB connector Aviation connector Toto of the operating data of the operating data of the operating data of the inverter: Is Remote firmware update Network diagnosis LED indicators Plug-in and Play Automatic resumption of data transmission upon network recovery IP65 rated enclosure protection 	Product schema Image:	<text><text><text><text><text><text><text><text><text></text></text></text></text></text></text></text></text></text>	<text><text><text><text></text></text></text></text>	To remove the Stick from the inverter, turn the floating screw counterclockwise as shown in the figure below. After removing the Stick, tighten the anti-dust cap clockwise to ensure inverter protection.
Plant Monitoring App download Download and install the Solplanet app by scanning the QR code below.	Account registration and plant creation 1. Open the Solplanet APP. After completing account registration and having logged in, click on the "+" icon to create a power plant. For details, please refer to the APP user manual. Note: The WLAN/LAN-Stick uses Ethernet by default, if you want to use WiFi to upload data, please disconnect the Ethernet connection. In Ethernet mode, WLAN/LAN-Stick defaults to Dynamic Host Configuration Protocol(DHCP).	 LED indicators and troubleshooting Green LED: Inverter communication indicator Green LED is off: Stick hardware fault, Please contact our service. Green LED is on: Data collection is normal. Blue LED: Network communication indicator Blue LED is off: the WLAN/LAN-Stick is not connected to the cloud server. Blue LED is blinking: The WLAN/LAN-Stick has connected to the router and obtained an address, but cannot connect to the cloud. Please check your router configuration or contact our after-sales service. Blue LED light stays on: the WLAN/LAN-Stick is connected to the cloud server.
